**FIRE PREVENTION**

The best way to prevent fire is to minimize its potential through the observation of safe work practices and housekeeping.

**You should observe the following basic rules:**

- Keep chemical storage areas neat and clean.
- Always plan laboratory work before executing it. Providing for safety and avoiding potential accidents are important elements of the plan. You should understand the hazards associated with the chemicals involved before you start the experiment.
- Know where to find and how to use all emergency equipment (such as fire extinguishers, eye washes, and safety showers) in the laboratory.
- Keep hood sash closed or as low as possible to save energy (VAV hoods) and maximize safety to laboratory personnel.
- Do not store large quantities of flammable, combustible or flammable gases outside a flammable liquid or gas cabinet.
- Maintain electrical equipment in good working order. Periodically check for potential electrical hazards such as frayed cords, broken plugs and overloaded electrical outlets. Avoid using extension cords.
- Do not block or hamper passageways or exit doors. NO storage in exit corridors or stairways.
- Do not store combustible items such as paper and cardboard against electrical panels, in telephone closets, stairwells, and corridors.
- Avoid accumulating excessive paper products and corrugated materials.

GENERAL EVACUATION GUIDELINES

- If the fire alarm is activated - STOP all activities and immediately initiate an evacuation.
- If it is safe to do so, close doors behind you as you exit.
- If you encounter visitors or guests - assist as necessary - follow EXIT signs to the nearest fire rated staircase or emergency exit - EVACUATE the building.
- Do NOT use elevators.
- Go to your designated meeting site.
- Please wait for further instructions.
- Do NOT re-enter the building until authorized by HUPD or the Cambridge Fire Department.

PLANNED HAZARDS

- Learn the location of alternative exits from all work areas.
- Know the location of the nearest fire alarm and learn how to use it.
- Know the location of your buildings/departments meeting site.
- If you have a disability that may delay your escape - communicate your needs with your building manager or the Accessible Education Office.
