

HARVARD UNIVERSITY DISPOSAL FACILITY LIST (LAST UPDATED 06/02/2025)

Only Facilities that are approved by Harvard University can be utilized for any waste materials shipped from Harvard University Property. This includes RCRA waste, Universal Waste, and soil or construction remediation waste. Harvard University generated wastes MAY NOT be shipped out of the country unless specifically approved in writing. Solid Waste facilities and facilities for disposal and recycling of uncoated construction and demolition waste (i.e. C&D Waste) facilities are not included on this list and will be managed by the project. This document is provided for Internal Harvard Use Only.

- 1. Additional facilities may be considered if information submitted meets Harvard waste and soil management specifications and the site is acceptable to Harvard University.

 2. A "Request for Soil Approval" letter regarding proposed soil, countersigned by the receiving facility, is required before soil may be shipped to a particular facility.

 3. DESIGNATED SOIL GROUPS are defined in the Excavated Soil and Material Management Plan specifications (Section OSCIOIO) https://www.ehs.harvard.edu/sites/ehs.harvard.edu/files/proj.plan.des_rev_excavated_soil_and_material_management_O26100_0.pdf

 4. Facilities may have specific background data which may be more restrictive than MassDEP requirements.

 5. Facilities receiving Group 1-4 (uniterial from situry wall and LEB executations) must agree to accept the material" sphysical qualities.
