FIRE PREVENTION
The best way to prevent fire is to minimize its potential through the observation of safe work practices and housekeeping.

You should observe the following basic rules:
- Keep chemical storage areas neat and clean.
- Always plan laboratory work before executing it. Providing for safety and avoiding potential accidents are important elements of the plan. You should understand the hazards associated with the chemicals involved before you start the experiment.
- Know where to find and how to use all emergency equipment (such as fire extinguishers, eye washes, and safety showers) in the laboratory.
- Keep hood sash closed or as low as possible to save energy (VAV hoods) and maximize safety to laboratory personnel.
- Do not store large quantities of flammable, combustible or flammable gases outside a flammable liquid or gas cabinet.
- Maintain electrical equipment in good working order. Periodically check for potential electrical hazards such as frayed cords, broken plugs and overloaded electrical outlets. Avoid using extension cords.
- Do not block or hamper passageways or exit doors. NO storage in exit corridors or stairways.
- Do not store combustible items such as paper and cardboard against electrical panels, in telephone closets, stairwells, and corridors.
- Avoid accumulating excessive paper products and corrugated materials.
GENERAL EVACUATION GUIDELINES

- If the fire alarm is activated - STOP all activities and immediately initiate an evacuation.
- If it is safe to do so, close doors behind you as you exit.
- Follow EXIT signs to the nearest fire rated stair-case or emergency exit - EVACUATE the building.
- Do NOT use elevators.
- Go to your designated meeting site.
- Please wait for further instructions.
- Do NOT re-enter the building until authorized by HUPD or the Cambridge Fire Department.

AED LOCATIONS
- B1—South elevator lobby
- Outside of room B153

LEVEL B1 EMERGENCY EXIT ROUTES

Evacuation Procedures
- IF YOU FIND FIRE OR SMOKE: Immediate action is critical. Leave the building via the primary exit route and plan to meet at nearest fire rated stair-case or emergency exit and report to your designated meeting area in the nearest fire rated stair-case or emergency exit. Do not use the elevator.
- IF YOU HEAR THE FIRE ALARM: Feel the door to your room. If it is warm, stay in your room. Put a wet towel or blanket under your door to keep smoke out and call 617-495-1111 to report the fire alarm. If your door is not warm, open the door slowly and proceed along your primary exit path. Exit the building via the designated stair-case or emergency exit and report to your designated meeting area. Do not use the elevator.

AED LOCATIONS
- B1—South elevator lobby
- Outside of room B153

IF YOU DISCOVER A FIRE—REMEMBER R.A.C.E

RELOCATE - If safe to do so, relocate people in immediate danger. Beware of persons who may need assistance.
ALARM - Pull the building fire alarm to alert others.
CONFINE - Close all doors as you exit your laboratory/office.
EVACUATE - Evacuate the building. Do not use elevators. Report to your designated meeting area.

DESIGNATED MEETING AREA

North (4)
Grass Near Palfrey House
Parking Garage (3)
Grass at intersection of Hammond and Museum St.
Central (2)
Near 38 Oxford street entrance ramp
South (1)
Front grass area; away from main entrance
