FIRE PREVENTION
The best way to prevent fire is to minimize its potential through the observation of safe work practices and housekeeping.

You should observe the following basic rules:

- Keep chemical storage areas neat and clean.
- Always plan laboratory work before executing it. Providing for safety and avoiding potential accidents are important elements of the plan. You should understand the hazards associated with the chemicals involved before you start the experiment.
- Know where to find and how to use all emergency equipment (such as fire extinguishers, eye washes, and safety showers) in the laboratory.
- Keep hood sash closed or as low as possible to save energy (VAV hoods) and maximize safety to laboratory personnel.
- Do not store large quantities of flammable, combustible or flammable gases outside a flammable liquid or gas cabinet.
- Maintain electrical equipment in good working order. Periodically check for potential electrical hazards such as frayed cords, broken plugs and overloaded electrical outlets. Avoid using extension cords.
- Do not block or hamper passageways or exit doors. NO storage in exit corridors or stairways.
- Do not store combustible items such as paper and cardboard against electrical panels, in telephone closets, stairwells, and corridors.
- Avoid accumulating excessive paper products and corrugated materials.

52 OXFORD STREET
CAMBRIDGE, MA
**General Evacuation Guidelines**

- If the fire alarm is activated - **STOP** all activities and immediately initiate an evacuation.
- If it is safe to do so, close doors behind you as you exit.
- Follow **EXIT** signs to the nearest fire rated stair-case or emergency exit - **EVACUATE** the building.
- Do **NOT** use elevators.
- Go to your designated meeting site.
- Please wait for further instructions.
- Do **NOT** re-enter the building until authorized by HUPD or the Cambridge Fire Department.

**AED Locations**
- B1—South elevator lobby
- Outside of room B153

**Evacuation Procedures**

- **IF YOU FIND FIRE OR SMOKE**
  - Immediately exit the building via the primary exit route and pull the nearest fire alarm pull station.
  - Exit the building via the ground floor discharge. Do not use the elevator.
  - Once outside, proceed to your designated meeting site and await further instructions from building management and/or the Cambridge Fire Department.

- **IF YOU HEAR THE FIRE ALARM**
  - Exit the door to your room. If it is warm, stay in your room. Pull a wet towel or blanket over your head to keep smoke out and call 9-1-1 to alert your location.
  - If the door is not warm, open the door slowly and proceed along your primary exit path. Exit the building via the designated stairways and ground floor discharge. Do not use the elevator.
  - Once outside, proceed to your designated meeting site and await further instructions from building management and/or Cambridge Fire Department.

**IF YOU DISCOVER A FIRE—REMEMBER R.A.C.E.**

- **RELOCATE** - If safe to do so, relocate people in immediate danger. Beware of persons who may need assistance.
- **ALARM** - Pull the building fire alarm to alert others.
- **CONFINE** - Close all doors as you exit your laboratory/office.
- **EVACUATE** - Evacuate the building. Do not use elevators. Report to your designated meeting area.

**Central (2)**
- Near 38 Oxford street entrance ramp

**South (1)**
- Front grass area; away from main entrance
